INVIGORATING CORDIAL, a Phenomenon in Medicine.

DR. MORSE'S INVIGORATING BUXIE OF CORDIAL. For contories, Modical solution has been ran acting the vegetable and mineral kingdoms, in search of something that should restors the lost or decaying entergless of the nervous and muneral science, without the drawback of subsequent pro-tration, which all stimulates, tonics, and narcolars and introtofore entailed. That something has been found. It is a vegetable production, brought from the sterile deserts of Arab's the Shay, by the celebrated Professor M. Norse, well known as a distinguished member of the leading selection accepted in the Ula World, and equally distinguished as a physician, a chomist, and arrawaler. The jutices of his hero, consentrated and considered with other regetable modificant extracts, are now producing results hereaforce unheard of, in this or any other constity. At first law; roperties attributed to Prof. MORSE'S INVIGURATING Shiath R. C.C.F. DIAL were deemed fabutions. The public often deceived could not believe the simple and subtime traths amonused by the discovers. But Laca, undaminible facus attented by witnesses of the highest class and character, are now stroughing over all duebus. REBUILD THE BROKEN CONSTITUTION. REBUILD THE SHOKEN CONSTITUTION.

The derangements of the system, leading to nervous diseases, and the forms of nervous diseases the light of see humerous that it would require a column to enumerate the malades for which this preparation is a specific. A few, however, may be enumerated, vir: neuraligia, its doluceaux, headache, incipient paralysis, hysteria, palpitation of the heart, sphall effections, muscular debility, tremores, flatuleree, a pricking sensation in the flesh, numbulers, topidity of the fiver, mental depression, weakness of the will, indisposition to move, faintness after exercise, broken sleep and terrif, ing dreams, inability to remain in one place or position, weakness of the proceedive organs, sexual incompetency, melancholy, monomania, fluor albus, sinking at the standard, female irregularities, a chronic tendedicy to miscourringe, emsciation, and all complaints growing out of a free indulgance of the passions, and all burreamets that does not proceed from organic causes beyond the reach of medicing.

Moneyer the organs to be acted upon are free from mul-formation or strictural diseases it is averred that MORSE'S INVIGORATING ELIXIE will replace working a with strength, incapacity with efficiency, irregularity with uniform and natural activity, and this no only without hazard of reaction, but with a happy effect on the general organization. It is bear in mind that all malatiles, wherever they begin, finish with the nervous system, and that the paralization of the nerves of motion and sensation is paysical death. Bear in mind slag, that for every kind of nervour disease the Elixir Condial is the only remained preparation known. CURE OF NERVOUS DISEASES.

CURE OF NERVOUS DISEASES.

No language can convoy an adequate idea of the immediate and almost miraculous change which it occasions in the diseased, debilitated and shattered nervous system, whether broken down by excess, weak by maiore, or impaired by sickness, the unstring and relaxed organization is at once braced re-viviled and built up. The mental and physical symtoms of mervous disease vanish together under its influence. Nor is the offest temporary; on the contrary, the relied is perment, for the cordial properties of the medicine reach the constitution itself, and restore it to its normal condition.—Well may the preprintion be called the MEDICINAL WONDER,

of the aineteenth century. It is, as the first scientific man in the world would have admitted, that miracle of medicine A STIMULANT THAT ENTAILS NO RE-ACTION Its force is never expanded, as is the case with opious, sice-holic proparations, and all other excitants. The effect of Its force is never expanded, as it the case with opinin, sheet helds proparations, and all other excitants. The effect of these is brief, and it may well be said of nim who takes thou, "The last state of that man is worse than the first?" But the Ellist is an exhibitant without a single drawback—eafe in its operatioe, perpetual in its happy influence upon the nerves, the mind, and the entire organization; it will also remove detrea lons, excitement, a tendency to black, sleeplessness, distincted society, incapacity for study of business. A GREAT MEDICINE FOR FEMALES.

The unparalleled effects of this great restorative, in all complaints incident to females, mark a new era in the annals of medicine. Thousands of stimulants have been invented—thousands of invigorants conceted—all purporting to be specified in the various diseases and derangements to which the delicate formation of woman render her liable—The result has heretofore been uniform. These nostrums have indeed imparted a momentary vixacity to the nervous system, a transient and delayive vigor to the muscles; but this fish of relist has been succeeded by a depression and prostration greater than before, and the end has too often been utter vio paralyzation, and shouly to destroy the unamply patient. Butin MORSE'S INVIGORAT NG ELIXIR, MORSE'S INVIGORAT NG ELIXIR,

is presented as a phenomena in the materia medica hitherto numera of—a stimulant without a reaction. The herb which forms its main ingredient, has been ad-The herb which forms its main ingredient, has been admitted by all the great medical and pnarmacentical institutions of Europe to be in this respect sui generis. Dr. Morse, whose name is an undisputed authority in sciences, discovered the production in Arabia, where his attention was excited by the wonderfully invigorating effects it produced upon the natices. In fact the wonderful power of endurance, the exhaustless vigor exhibited by the Arab, of both sexes, in fact desert pingrimages, is attributable to the use of this visitable to the use of this visitable to the use of the sexes Au appent is made to

will find this Cordial after they have used a bottle or thers, will find this Cordial aircrincy have used a souther or two, a thorough regenerator of the system. In all direc-tions are to be found the happy parents of healthy offspring, who would not have been so, but for this extraordinary preparation. And it is equally potent for the many diseases for which it is recommended. Thousands of young men have been restored by using it, and not in a single instance has it fried to benefit them.

PERSONS OF PALE COMPLEXION. or consumptive habits, are restored by the use of a bottle or two to bloom and vigor changing the skin from a pale, yel-low, stekip color, to a beautiful florid complexion.

TO THE MISGUIDED. These are some of the sud nod melanchoty effects produced by early habits of youth, viz. weakness of the back and limbs, pains in the head, dimness of sight, hose of muscular rower, palpitation of the heart, dyspepsis, nervous rritabity, derangement of the digestive functions, general debitity, symptoms of consumption, &c.

Mentally, the fearful effects on the mind are much to be allowed for memory, confesion of ideas, depression of dranded. Loss of memory, confusion of ideas, depression of spirits evil fore-bodings, aversion to society, self distrust, love of solitude, timidity, occ. are some of the evils produced.

BEFORE CONTEMPLATING MARRIAGE, should reflect that a sound mind and body are the most necessary requisites to promote consubial happiness; indeed, without these, the journey through life becomes a weary piligrinage, the prospect hourly darkens the view; the mind becomes shadowed with despair, and filled with the melancholy reflection that the happiness of another becomes blighted with your own.

PARENTS AND GUARDIANS. Are often misled with respect to the causes and sources of discusses in their sons and wards. How often do they ascribe to other causes of wasting of the frame, idiocy, madness, palpiation of the heart, indigestion, derangement of the nervous as stem, cough and symptoms indicating consumption, when the truth is, that they have been indulging in a permitions though alluring practice, destructive both to mind and body. THE inventor of this preparation was for three years a completely prestrated from Dyspessia and inactivity of the Liver that he was frequently for weeks at a time tamble to raise himself from his bed. He sought aid from physicians at home and in Europe, but in vain, his case was pronounced hopeless by thousands, and it was by accident that he succeeded in curing timself. Since he has been practicing medicine, his success in such cases has been unrivalled. He has been aware of the incredulity of the public, and consequently said nothing through the press of his own case, until the character of the medicine was folly established by its success, as shown by the certificates which have mean by its success, as shown by the certificates which have been advertised. advertised.

DR. FRASK'S MAGNETIC CONTINENT.

MR. WINTERS had lost nearly all of his hair and had been hald for many years; by the use of three betof the Magnetic Cintiment, had his hair entirely recould wish. His age is about 50 years.

A son of Mr. Warren, of this form, 14 years of age, had been afflicted with the Asthma from his crudie. He had the benefit of the best medical advice that a loving and wealthy father could procure, without avail. It was one of the most aggravated cases I ever saw; he was emiciated al-most to a skeleton. By the use of a few bottles of the Oint-

ment he was the coupley curved, and for seven months past has enjoyed robust health.

This was an extreme case of inflormation of the spicen, of long standing has a variety of treatment from no less than sinks different physicians, without receiving benefit—was cured by the use of only four bottles of the Magnetic Ointman. cared by the use of only four bottles of the Magnetic Ointment. This was four months ago and the lady (a Mrs. Dunham,) is still in good health, and able to aftend to her usual household detics. Harve treated two cases of Caronic Sore Eyes with the Ointment, both of the patients so assardy bland, as to used an attendant to lead them from place to place. One of them had been afflicied its rears, the other about 9 years. They had tried the best physicians in the State, without benefit; and one of them had been under the treatment of the celebrated Dr. Muzzy, of Cincinnati, for cishtsen months, and had expended numbereds of dollars in treatment of the celebrated Dr. Murzy, of Cincinnati, for eighteen months, and had expended numbreds of dollars in vain efforts to effect a cure. They are now by use of the Magnetic Ointment, nearly or quite cured, and are able to read and attend to any ordinary business. I have used the Ointment in a number of cases of Piles, and in no cose basid toiled of griding immediate vite fand generality a permanent cure. I have also used it beneficially in severe cases of Exysipelas. And last but not lenst, I have within the last year cured four cases of CANCER by the use of the Magnetic Ointment alone!

From a thorough trial of the Ointment in nearly every disease for which it is recommended. I can confidently re-

disease for which it is recommended, I can confidently re-commend it to be one of the most useful remedies ever offered to the public. Respectfully Yours, BURTON HUBBELL, M. D. Dated Jan 27, 1850, Amelia, Ohio.

families in the city to make their own bread, without making known the modur operands, as such secret proceedings are nijurious to the well-doing of Bakers, and ought not in be permitted. The grounds are processly the same.

If Doctors were always infallible, there might be some justice in legislative acts to compel the public to apply to them universally, but unfortunately we have before us the Crescent City paper of the 3d of September, from which we learn that 20 OUT OF EVERY 100 CASES OF YELLOW FEVER treated scientifically by the faculty have died, and

98 cases of every 100 treated by old women, the non-medical members at the Howard Association, and by more excessive humbugs the Ho-morpathic Doctors, have been cured.

Such statements as the above are injurious to the profession, for people are easily led estray, and may be induced to attack less value to Latin prescriptions and expensive Hiroglyphies, and occasionally trust to the dogmas of common sense, incl down in plain English, to the trincfenberg Medicines, which are warranted to do no harm, and for which no money is exacted if they do not prove beneficial. Dysentery Syrup and the Childrens' Panacea of the Gradenberg Company, have, in two years past saved 20,000 lives, from Flux and Dysentery when all other rem-edies had failed. edies had failed.

But it seems that the objection to these remedies is that "it is an attempt in send forth medicines without the presence of the Dector"—who is thus deprived of the proper de-

gree of aid and comfort that he should receive for formsh-ing the proscription, "Hine illan lacke your." The Doctor and the medicine should go together, the Medical Society have so willed it, let no quack put them asunder. sept20 TO TRAVELLERS GOING NORTH. United States Mail Line
